Featuring ISOCORE Technology

ISOCORE TECHNOLOGY® STRONG INSIDE, BEAUTIFUL OUT.

CANADA HILLAND

ISOCORE Technology[®] is made with extruded closed-cell vinyl construction so it's strong and rigid, yet incredibly light. This makes ASPECTA[®] TEN highly durable, easy to install and 100% Waterproof.

ASPECTA® TEN

A NEW DIMENSION IN FLOORING

Get ready to discover ASPECTA® TEN. The result of four years of ground-breaking research and development, ASPECTA® TEN consists of a 0.118"/3mm LVT applied on an extruded vinyl structural core. We have combined a number of cutting edge technologies to create a strong and beautiful flooring system that matches the look of natural textures, with the durability and comfort only LVT provides.

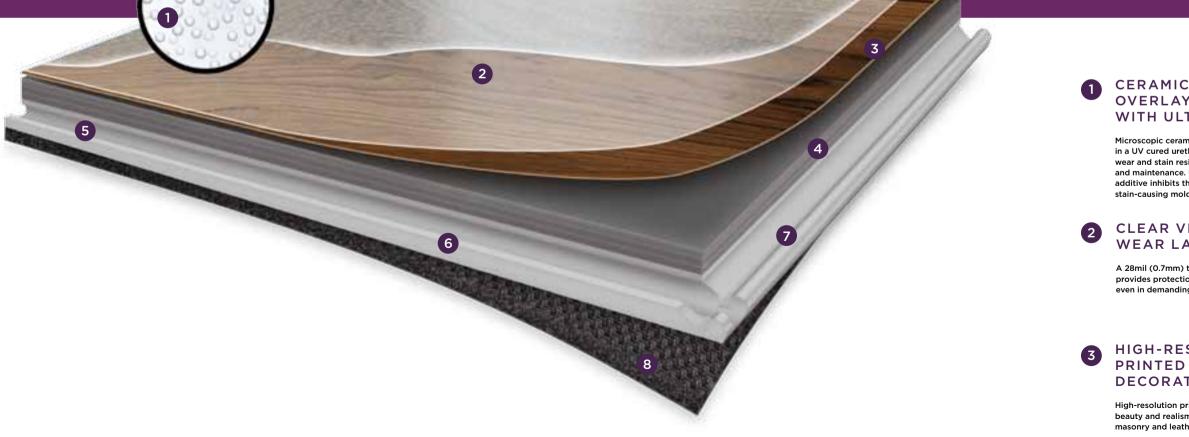

INTRODUCING ISOCORE

FLAWLESS TECHNOLOGY FOR BEAUTIFUL DESIGNS

ISOCORE Technology[®] forms the closed cell foamed vinyl structural core of ASPECTA[®] TEN flooring. It's what makes ASPECTA[®] TEN so brilliantly unique.

- ISOCORE Technology[®] is durable and dimensionally stable ideal for the current trend in longer planks and tiles.
- It is 100% waterproof, another reason why ASPECTA[®] TEN is the perfect solution for the commercial flooring sector.
- Although strong, ASPECTA[®] TEN is amazingly light so it's incredibly easy to transport and install.

Thanks to ASPECTA® TEN's factory applied PE underlayment, it can be laid directly onto existing tiles and flooring.

EFFORTLESS INSTALLATION

STUNNING RESULTS

• ASPECTA[®] TEN's thick, polyethylene foam underlayment, combined with its revolutionary ISOCORE Technology®, allows it to be installed over substrates with minor imperfections that would typically telegraph through a traditional, glue-down LVT floor.

• This innovative foam underlay works hard to eliminate excessive noise, whilst creating a comfortable flooring underfoot. This is perfect for busy commercial environments where noise needs to be kept to a minimum and comfort is crucial.

• ASPECTA[®] TEN's size range makes installation even guicker for large commercial surface areas. It is available in 17.64" x 35.67"/448mm x 906mm tiles or 8.66" x 59.45"/220mm x 1510mm long planks. Our range now also includes XXL planks which measure 8.62" x 71.61"/219mm x 1819mm.

• ASPECTA[®] TEN also boasts DropLock 100[™] system technology, a special installation system featuring a fold-down locking system that means even larger planks can be easily installed.

ULTRA-FRESH

ENHANCED FLOORING PROTECTION

Ultra-Fresh is a pioneering technology that is added to both the top and bottom layer of ASPECTA® TEN flooring. It inhibits the growth of odor and stain-causing mold and mildew.

CERAMIC BEAD OVERLAY TREATED WITH ULTRA-FRESH

Microscopic ceramic particles suspended in a UV cured urethane coating for superior wear and stain resistance and easy care and maintenance. Ultra-Fresh antimicrobial additive inhibits the growth of odor- and stain-causing mold and mildew.

CLEAR VINYL WEAR LAYER

A 28mil (0.7mm) transparent vinyl wear layer provides protection against scuffs and abrasions, even in demanding commercial environments.

HIGH-RESOLUTION DECORATIVE FILM

High-resolution printed film delivers the beauty and realism of natural wood, stone, masonry and leather with vivid clarity.

Multiple layers of solid virgin vinyl enhance durability and facilitate authentic embossing.

5	ISOCORE
	TECHNOLOGY

A 0.197"/5mm thick highly engineered closed-cell extruded vinyl structural core. ISOCORE Technology® is 100% waterproof, rigid, light, strong and dimensionally stable.

Angle-locking technology is profiled on long-edges of planks and tiles to facilitate a fast, floating-floor installation

DROPLOCK 100[™] SYSTEM TECHNOLOGY

End joints utilize DropLock 100™ system technology to facilitate a fold-down locking connection that dramatically expedites installation speed and aligns the top-surfaces of adjoining planks and tiles.

INTEGRAL SOUND MITIGATING UNDERLAYMENT

A pre-attached underlayment that minimizes both reflected and transmitted sound, is shock-absorbing, provides warmth and comfort underfoot and helps further conceal subfloor imperfections.

WOODS A RANGE OF 24 PLANKS

L'ALLA L'ALLANDA

STONE, MASONRY & LEATHER A RANGE OF 10 TILES

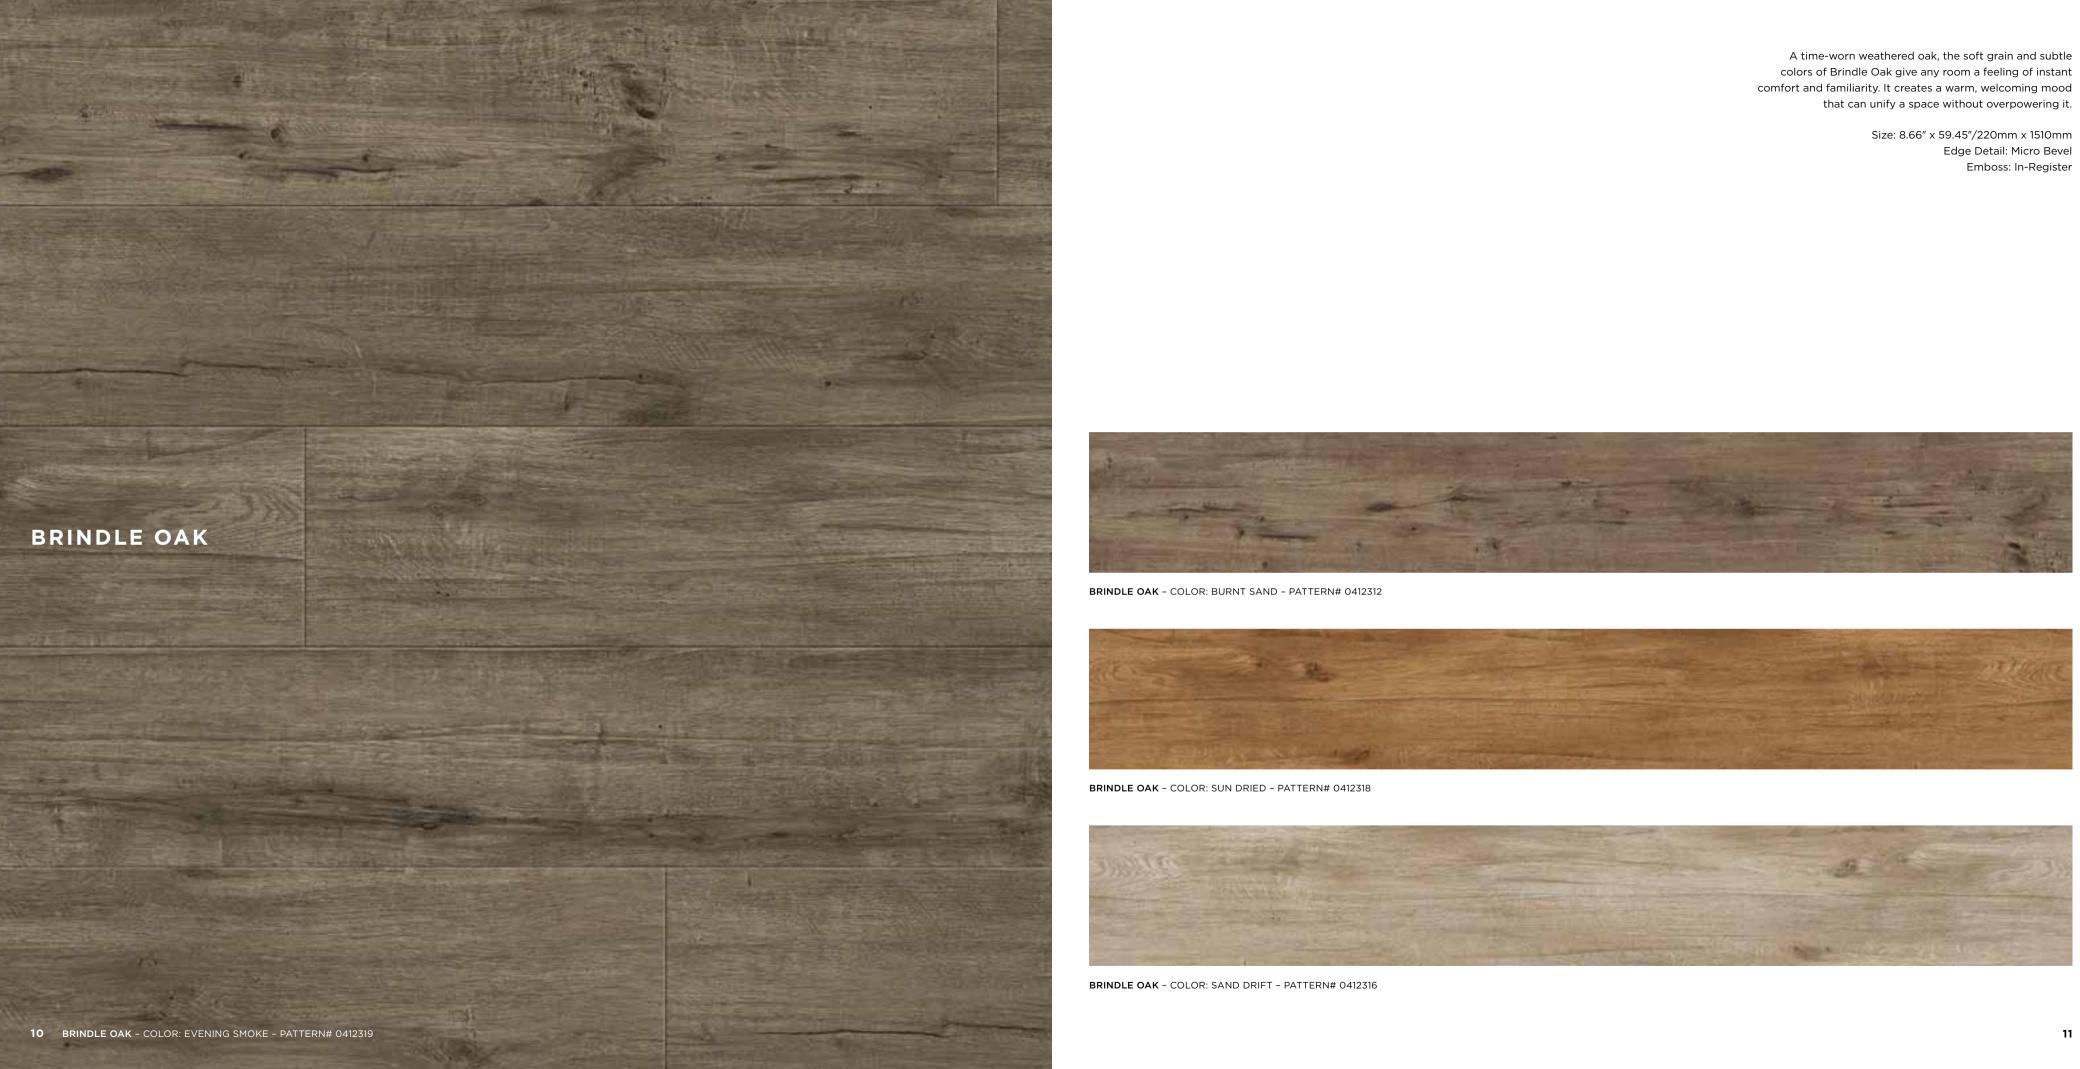

WOODS

ASPECTA® TEN marks a whole new level of authenticity in wood grain design.

8.66" x 59.45"/220mm x 1510mm long planks address the demand for larger plank and print widths. We have also introduced an XXL plank range which is available in the larger size of 8.62" x 71.61"/219mm x 1819mm. All our planks feature in-register embossing textures that really capture the intricate figuring and grain of reclaimed or repurposed wood.

ASPECTA® TEN designs come in a carefully curated selection of colors, offering everything from rich wood tones to dramatic darks and striking neutral Greys. Whether hospitality, retail or office space, these new wood finishes have the flair to bring any interior together.

With its refined, multi-layered stain and hand-rubbed oak, Tally Oak lends an understated elegance to any space. The distinctive grain scale and eye-catching figuring carries through all seven colors, offering a full complement of choices.

Runyon Oak is the most dramatic in character an authentically raw ranch look, suitable for everywhere from chic boutiques to beachside bistros. Like your favorite denim jacket, it matches any look, particularly with the range of Grey neutrals available.

> Size: 8.66" x 59.45"/220mm x 1510mm Edge Detail: Micro Bevel Emboss: In-Register

CRESCENT OAK

For those who like to think bigger, we've extended our collection with ASPECTA® TEN XXL planks. At nearly 6 feet long (8.62" x 71.61"/219mm x 1819mm), they utilize DropLock 100™ for fast, easy installation in expansive spaces. But while XXL is larger, it's also surprisingly strong and light. With every inch delivering all the benefits of our ISOCORE Technology®.

What's more, ASPECTA® TEN XXL offers a perfect canvas for the sophisticated grains and colors of our Crescent Oak design. With planks closer in size to real wood, it adds to an authentic look ideally suited to hotels, restaurants and retail environments.

STONE, MASONRY & LEATHER

For the ASPECTA® TEN stone range we wanted a suite of color and textural choices varied enough to complement your vision, whatever the project.

Drawing inspiration from unexpected areas, our three tile designs measure 17.64" x 35.67"/448mm x 906mm, combine the very latest innovations in production with realistic embossing to offer something truly unique. Something that not only enhances the appeal of your environment, but is designed to endure and impress for many years to come.

Fulton Hyde delivers a strikingly unique leather patina in two rich tones. Intricate rivulets of wear cracks tell the story of age worn proudly, a well-loved item whose comfort-folds and blemishes are only enhanced by time.

> Size: 17.64" x 35.67"/448mm x 906mm Edge Detail: Micro Bevel Emboss: Calf Skin

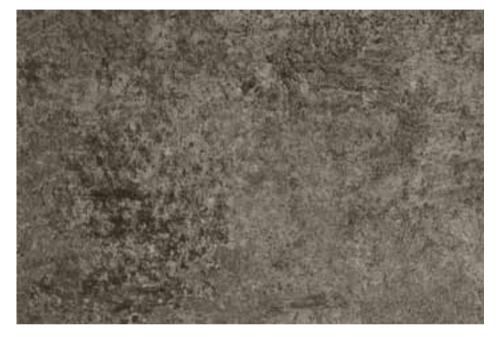

FULTON HYDE - COLOR: BURNT CHILI - PATTERN# 0643713

FULTON HYDE - COLOR: BURNT CARAMEL - PATTERN# 0643712

A deceptively rich concrete detail, Urban Grid can enhance most design approaches, offering a versatile, contemporary dimension. The scale of this concrete patterning and the color range provide an expansive foil to any designer.

EMBOSS

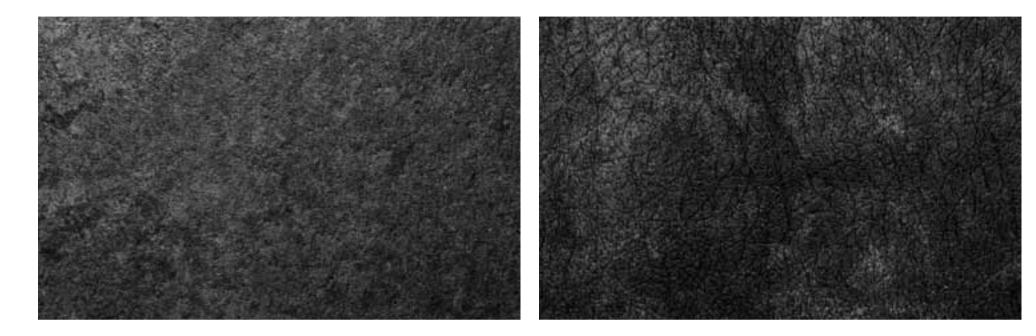

Discover ASPECTA® TEN's stunning collection of in-register wood embosses. The ASPECTA® TEN Tile boasts a range of unique embossing techniques: Honed Stone, Calf Skin and Coral.

TALLY OAK - A classic white oak that has been wire brushed, then hand rubbed with tong oil and colored bees wax. The embossing was created to enhance the rich graphic grain pattern of the wood.

TANLEY OAK - A traditional oak look with even graining and small, tight cathedrals. The embossing brings out the tried and true character of this design.

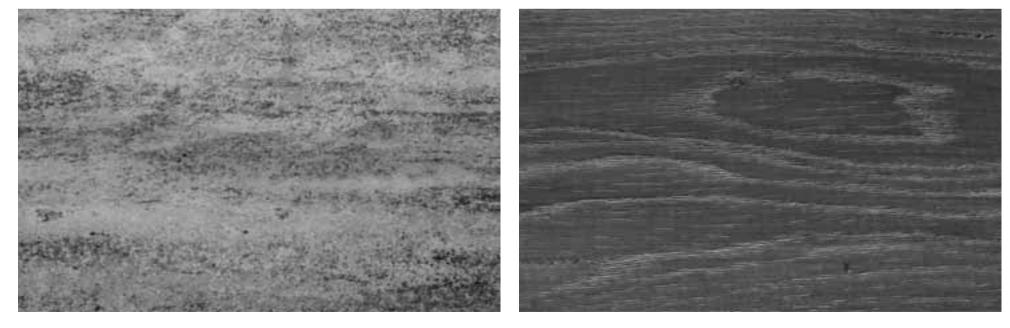

with a soft lustre.

BRINDLE OAK - Inspired by the mature oak planks found on an old spring house in Wyoming, this embossing captures the fine lines of the wood that years of exposure to the elements create.

RUNYAN OAK - This design evokes the rustic and unyielding character of the old west. The embossing follows the long grain lines of the wood through all its years of growth, combined with the print to create a unique and dramatic effect.

CORNETO - The Coral texture of Corneto gives a beautifully smooth texture with a subtle natural stone effect.

URBAN GRID - Urban Grid uses Honed Stone embossing, which is a smooth all-over texture that gives a simple yet elegant surface

FULTON HYDE - The Calf Skin embossing of this design adds an overall texture without being overpowering. It delivers a distinct two-toned leather patina, with cracks and wear that only get better with age.

CRESCENT OAK - Rich in depth and variation, the Crescent Oak emboss beautifully complements the reclaimed look of our XXL design. Leaving an authentic finish, even under the closest scrutiny.

NALFA/ANSI STANDARDS (LF-01-2011) - PERFORMANCE

NORTH AMERICAN STANDARDS - SUSTAINABILITY

Description
This product is FloorScore® Certified and has thus been found to comply with the volatile organic compound emissions criteria of the California Section 01350 standard. FloorScore® Certification can also be used as an alternative path to obtaining LEED EQ 4.3 credit.
This product is NSF/ANSI 332 Gold Certified and thus meets benchmark standards for social, environmental and economic sustainability as defined

by the NSF/ANSI 332 standard. The assessment evaluated product design, product manufacturing, long-term value, end-of-life ma corporate governance, and innovation.

1) Use: Refer to Recommended Use PDF for Recommended Commercial Areas

2) Aspecta Ten Limited Commercial Warranty: Please see full terms and conditions of our warranties at www.aspectaflooring.com

3) ASTM G21: Top Surface (LVT) scored 1 (Traces of Growth; <10% Growth); Bottom Surface (Underlayment) scored 0-1 (No Growth to Traces of Growth; 0-<10% Growth)

6) NSF/ANSI 332: Aspecta* Ten carries NSF/ANSI 332 Gold Certification for all collections except the following: Crescent Oak
